

OLAYIWOLA MARIAM

FRONTEND DEVELOPER

maryham4real@gmail.com | [Github](#) | [Linkedin](#) | [Portfolio](#)

PROFESIONAL OVERVIEW

Frontend Developer with over two years of experience building responsive, user-focused web applications. Skilled in creating clean interfaces and interactive experiences using modern frontend technologies including React, React Router, Redux, Supabase, Tailwind CSS, Styled Components, and JavaScript. Passionate about writing maintainable code, improving user experience, and building performant web products across devices.

EDUCATION

Bachelor of Science (Undergraduate) in Computer Science

Ladoke Akintola University of Technology – Expected year of graduate: 2027

Relevant Coursework: Web Development, UI/UX Design, Data Structure

SKILLS

- Technical skills: HTML, CSS, JavaScript (ES6+), React, Tailwind CSS.
- Soft skills: Problem Solving & Debugging, User-Centered Design Thinking, Attention to UI/UX Details, Continuous Learning & Improvement
- Concepts & Tools : Responsive Design, Component-Based Development, API Integration, State Management, DOM Manipulation, Git, Deployment

PROFESSIONAL EXPERIENCE

SOLVURIX (REMOTE)

5,Brayford Square, London,E1 OSG

JUNIOR FRONTEND DEVELOPER

May 2026 – Present

- Develop and maintain responsive web applications using React, Tailwind CSS, JavaScript, and TypeScript.
- Design and build cross-platform email templates using SendGrid, ensuring consistent rendering and functionality across Outlook, Gmail, and other major email clients.
- Contribute to the development of a taxi rental platform that enables users to rent vehicles by submitting and verifying required documentation and personal details.
- Developed and maintained the Driver Dashboard, allowing drivers to track profile completion status, upload required documents, and manage account information efficiently.
- Collaborate with designers, backend developers, and stakeholders to implement user-friendly interfaces and improve overall user experience.
- Write clean, reusable, and maintainable code while following frontend development best practices.

PROJECTS

Lumina Law Firm

Live Demo: [Lumina Law firm](#)

- Built a professional law firm website using **React** with a clean, modern, and responsive layout.
- Designed reusable components and structured sections for services, about, and contact to ensure scalability.
- Deployed the project with a mobile-first approach to deliver a smooth experience across all devices.

Sweet Craving

LiveDemo: [Sweet Craving](#)

- Built a responsive dessert-themed React web app with reusable components for a smooth user experience.
- Used Redux for state management and React Router for seamless navigation across pages.
- Styled the application with Tailwind CSS and deployed it to demonstrate modern frontend development practices.

React Quiz Application

Live Demo: [Quiz app](#)

- Built an interactive quiz application using **React** with a clean and responsive UI for an engaging user experience.
- Managed quiz logic and state efficiently using the **useReducer hook** with reusable and scalable components.
- Deployed the project to showcase modern React development practices and responsive frontend design.

Space Tourism Website

Live Demo: [space tourism](#)

- Built a responsive Space Tourism website using **React** with a modular, component-based architecture for an interactive user experience.
- Managed complex UI state using **useReducer** and shared global data with **useContext** for clean and scalable state handling.
- Designed and deployed a fully responsive interface optimized for seamless use across mobile, tablet, and desktop devices.
